CLASSIFICATION

Of Grades Under the New System of
Promotion to Be Inaugurated in
the Public Schools Monday.

If the patrons of the Center and
First District buildings will read this
article carefully there will be no need
of any misunderstanding relative to
the building their children should at-
tend at the beginning of the new
semester.

At the Center building Miss Martin
will have grades 1 A and 2 A. Miss
Hattie Gray 4 B and 4 A; Miss Wil-
son 6 B and 6 A. No change in the
7th and 8th grades as we now have a
teacher for each as it should be. At
the First District Building Miss Nash
will have the 1 A and 2 B; and Miss
Hurd 2 A and 3 B. Miss DeBolt 3 A;
and Mrs. Marsh 5 B and 5 A. This
means that all 3rd and 5th grades
below Limestone Creek will be in the
First District Building and all 4th
and 6th grades will be at the Center
Building, there being no changes in
the other grades.

Under this arrangement it will be
possible for us to have the proper
grading and classification mentioned
in previous articles and will permit
us having the Mid-year promotion
which are so essential to the progress
of the pupils. I will repeat this illus-

tration that it may be clear in the
minds of all of the parents. Miss
Hattie Gray has 47 pupils of the 3rd
and 4th grades. If each of those
grades were divided into an A and B
Section, which must be done to have
Mid-year promotions, she would then
have four different grades consequent-
ly, four different class schedules in
the one room which is practically an
impossibility considering efficiency.
The same condition prevails exactly in
Miss DeBolt's room in the First Dis-
trict Building. Now when we give Miss
Gray the 4th and Miss DeBolt the 3rd,
it is very evident that under those
conditions mid-year promotions are
feasible.

It is my firm conviction that any
parent objecting to such arrange-
ment is clearly working against the
interest of their children for whose
same interest we are giving our best
energies.

It will be my pleasure to advise with
any and every parent concerning the
changes above outlined and I will en-
deavor to make everything as clear
as possible. The Board of Education
and I feel that even though there be
criticism at first, time will prove the
wisdom of the change and that Jan-
uary 29th, 1917, will be in a few years,
one of the Big Days in the Calendar
of Maysville's already glorious
achievements.

IGNORING FACTS

At frequent intervals during the past three years, the Republican press of the country has presented, for the consideration of the Wilson administration, figures derived from official records and showing that, as a revenue measure, the Underwood tariff has been a failure. That law was passed by a party which claims to be an advocate of a tariff for revenue only, and professes to be vigorously opposed to protection in any form or degree. In its effort to eliminate absolutely all protection from our import tariffs, that party, in framing the Underwood law, cut the import duties so low as to impair its revenue-producing features.

Leaders of the Democratic party have been so uncompromising in their opposition to protection that they would not heed the facts presented by the Republican press showing the need of an increase in import duties for revenue purposes. They have had before them figures showing that during the fiscal year ended June 30, 1913, under a Republican tariff law, the total value of imports was \$1,813,000,000, upon which the government collected customs revenues the amount of \$318,142,000, and that during the fiscal year ended June 30, 1916, imports aggregated \$2,197,800,000, upon which the government collected import duties amounting to only \$21,866,000. The average rate of duty collected in 1913 under Republican tariff laws was 17.5 per cent, and in 1916 under the Underwood tariff law only 9.72 per cent.

Today the Democratic administration finds itself in dire straits for want of revenue. It faces the probability, if not the certainty of a deficit of \$300,000,000 in the next fiscal year, unless some measures be found to provide more Federal income. It also faces the probability, if not the certainty, that upon the close of the war European and Asiatic nations, which have in the past two years brought their productive industries to the highest state of efficiency will pour their surplus manufactured products into our markets.

With these two vital facts before them and frequently impressed upon them by the Republican press, the administration hesitates and apparently refuses to revise its tariff law, for the purpose of either protection or revenue. With the same degree of stupidity which it manifests in the handling of foreign affairs, it demonstrates its inability to grasp the simplest elements of domestic economy. It hopes in some way to find some means of imposing further taxes upon our own people and gives not a thought to the opportunity to impose a tax upon those foreign producers who ship their products into our markets for sale in competition with the products of American enterprise.

Whether the administration will ultimately awake to the situation and to its duty, is doubtful. However that may be, the Republican press of the country may have the satisfaction of knowing that it has faithfully performed its duty in the collection and presentation of facts which are of vital importance to the welfare of the country, regardless of partisan politics.

ENCROACHING ON PRIVATE BUSINESS

Representative Hampton Moore directs attention to the manner in which the United States Government is more and more encroaching on private business and he expresses a doubt whether the American people appreciate the grave significance of this movement or the extent to which it has already gone.

It is practically certain that they do not, but many thoughtful men have observed and have been most unfavorably impressed by the situation upon which Mr. Moore, with characteristic intelligence and good sense, has been commenting, and have felt that unless this country is to abandon the ideals which it has heretofore cherished and to repudiate the principles upon which this republic was established it is about time to call a halt and to arouse public opinion in resistance to the socialistic tendencies which under the present administration have attained to such a surprising and sinister development.

The policies which have been adopted in this connection by the party now in power, and the measures which it has effectuated, would have astonished and disgusted its reputed founder, Thomas Jefferson, by whom all Democrats were wont to swear, and to whom most of them still profess allegiance. He entertained theories of the function of government diametrically and irreconcilably opposed to much of the current legislation for which the Democratic Party has made itself responsible. He held that the best government was the one that governed least; that nothing should be undertaken by the government enterprise and that its activities should be strictly confined to the province which everyone recognized as distinctly its own. In providing for the safety of the citizen in his person and in his property and in securing to all an equality of opportunity, its whole duty had been done.

It is a far cry from those views and doctrines to the theories and practices of the party which claims to have inherited the Jeffersonian tradition. The idea which its proceedings during the past four years, or nearly so, has exemplified is that the activities of the government should be as much as possible enlarged. One law after another has been enacted apparently based upon the supposition that the government is more efficient than private enterprise, a supposition which every scrap of evidence bearing upon the subject flatly contradicts, and a progress has been made toward the institution of a Stat. Socialism of which the average American citizen has a very inadequate conception.

Of course, the entrance of the government into any field of industrial production renders private competition within that field impracticable and generally works the confiscation of the capital which had therein been invested. Perhaps the American people approve this kind of thing and desire its continuance. If so, they have undergone a strange change of heart.—Philadelphia Inquirer.

The Monroe Doctrine stands as our declared policy in international relations, and there is no more power in the White House to extinguish it, or to pledge the people and the government of the United States to the guarantee of European boundaries, than there is in this newspaper or in the executive offices of the Pennsylvania railroad.—New York Sun.

Remember that Mississippi, with ten electoral votes, as against Nebraska's eight, cast less than half Nebraska's vote at the polls. It is this disfranchisement of voters in the South that keeps the Democrats in the saddle.—Omaha Bee.

TIRED WORKING MEN

A Local Druggist Suggests a Remedy For Overworked, Run-Down Men.

The following letter from Manager Hodges recounts the experience and condition of many Maysville men. Read this letter and our offer which follows:

Brooklyn, N. Y. "I am a general office manager, and became so nervous and run-down in health that I lost my appetite and finally my health broke down completely, largely because of overwork. I tried Beef Iron and Wine, and other remedies without help. I saw Vinol advertised, and soon after taking it I noticed an improvement. I now have a hearty appetite, sleep better, feel better and have gained considerable in weight." Samuel Hodges, 501 Stone Ave., Brooklyn, N. Y.

The reason Vinol is so successful in such cases is because it contains the oldest and most famous tonics, viz., beef and cod liver peptones, iron, manganese peptones, and glycerophosphates.

We ask every run-down, over-worked man in Maysville to try a bottle of Vinol with the understanding that their money will be returned if it fails to help them as it did Mr. Hodges. John C. Pecor Drug Co., Maysville, Ky. Also at leading drug store in all Kentucky towns.

AMERICANIZATION OF NEW YORK'S ALIENS IS BEGUN

New York, January 24.—Mrs. Vincent Astor plans to Americanize New York City's alien population took concrete form today at a luncheon given in her Fifth Avenue home, once the scene of this city's most brilliant social functions under the leadership of Mrs. John Jacob Astor, to three score residents of the East Side, at which wealthy society women touched elbows with those who dwell in less pretentious quarters.

SHED FALLS IN

(Fleming Gazette)

A shed to the Cushman tobacco barn at the junction of Maysville and Johnson pikes just beyond the city limits collapsed and fell Friday morning while a team of horses was standing under it and with C. A. Glascock engaged in unloading tobacco. Mr. Glascock was struck by the falling roof and knocked unconscious for a few minutes but came around all right.

MRS. KIESO SICK SEVEN MONTHS

Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Aurora, Ill.—"For seven long months I suffered from a female trouble, with severe pains in my back and sides until I became so weak I could hardly walk from chair to chair, and got so nervous I would jump at the slightest noise. I was entirely unable to do my housework. I was giving up hope of ever being well, when my sister asked me to try Lydia E. Pinkham's Vegetable Compound. I took six bottles and today I am a healthy woman able to do my own housework. I wish every suffering woman would try Lydia E. Pinkham's Vegetable Compound, and find out for themselves how good it is."—Mrs. CARL A. KIESO, 696 North Ave., Aurora, Ill.

The great number of unsolicited testimonials on file at the Pinkham Laboratory, many of which are from time to time published by permission, are proof of the value of Lydia E. Pinkham's Vegetable Compound, in the treatment of female ills.

Every ailing woman in the United States is cordially invited to write to the Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass., for special advice. It is free, will bring you health and may save your life.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years doctors pronounced it to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

ROLLING MUSICAL COMEDY

"September Morn," the whirling musical delight from the LaSalle Opera House, Chicago, comes to the Washington Theater, Tuesday night, January 30th, with the jolly comedian William Moore, always a welcome entertainer and associated with this brilliant fellow of nimble legs and funny faces are many happy comedy players, including Maud K. Williams, Ruth Wilkins, James Baber, J. J. Patton, Billy Murphy, Leslie Jones and other talented principals who help to keep the fun moving at a rapid fire pace. The company number nearly fifty and the pretty chorus of girls have much to do with "putting over" the tuneful jingles and attractively arranged ensembles. The dances are many and have to do with the famous Tancoes and graceful Hesitation waltz movements, which are the rage

of the leading Music Halls and Cabarets.

"September Morn" is a musical jingle of tangoes, comedy and joy and Ruth Wilkins, "The American Gaby Desleas" is a hit as "Argentina" in this big fun show.

The producers, who have a long string of theatrical successes to their credit, have given this delightful success an extremely elaborate mounting, both in regards to scenic effects and costumes. Seats on sale at Crane & Shafer's Paint Store.

THIRTY YEARS AGO

In the Ripley Bee of yesterday the following item was found in the thirty years ago column, the item being taken from the Bee of January 26, 1887:

A paper will soon be published at Dover, Ky., by Mr. Samuel W. Stairs, formerly of the Bee Office. It will be called the Dover Weekly News.

LEAK INQUIRY IS SUSPENDED

Time Given Brokers to Produce Records of Sales--Recess of Week--Big Operators on Market Just Prior to Peace Note Sought.

New York, January 24--To give Stock Exchange brokers time to produce records of the dealings of their customers during the time the international peace situation was a factor in the stock market, the Rules Committee of the House suspended today its "leak" inquiry and returned to Washington. They will come back next Tuesday, by which time it is expected the brokers' accounts will have been examined by the committee's experts.

The committee expects to learn from the accounts who were the big operators in the market just prior to the publication of the President's peace note and will then summon these individuals to find out if they had any advance information on the note, and if so, where they got it.

The adjournment came after the committee had been informed by Chairman Samuel F. Street, of the Stock Exchange Clearing House Committee, that it would be physically impossible for the 600 or so brokerage houses belonging to the Exchange to produce the desired data within two weeks or a month. This was in conflict with an earlier statement by President H. G. S. Noble, of the Exchange, who thought the first responses might come within a day or two. The committee went into executive session on the subject with Messrs. Street and Noble and its experts. The result was that the committee submitted to the Board of Governors of the Exchange a supplemental request to be transmitted to the brokers which was expected not only to simplify the bookkeeping task of furnishing the desired data, but also to provide for concealment of the names of customers, whom the committee find not to be involved in the inquiry.

Already the committee's experts have the Stock Exchange Clearing House sheets under examination and have a list of brokerage houses which sold stock heavily just prior to the publication of the note. One of the documents showing net sales on December 13 of 15,600 shares of United States Steel by an unnamed firm was submitted to the committee in its public session today. It was brought out that this did not indicate necessarily that the sales were for the short side of the account, but furnished a clue. The exact nature of the sales the experts could find out by examining the firm's books.

As was the case yesterday, the committee's counsel in examining witnesses today pounded away at the "short" sale feature of stock market speculation. It seemed to be Mr. Whipple's purpose to show that the opportunity of the public to make profits against pools organized to operate on the "short" side were slim. In questioning President Noble on this subject, particularly as to whether stock withdrawn from the market as unavailable for short operation, Mr. Whipple was assailed by Representative Chipperfield. The Congressman accused the attorney of impugning Noble's sincerity. Whipple denied any such intention.

PREHISTORIC RACE OF HIGH CIVILIZATION REVEALED BY RELICS

Tucson, Ariz., January 23--Relics of the huge settlements of a prehistoric race of highly civilized Indians who built great dams and irrigated desert land in the southwestern corner of New Mexico were found by Ranger Don S. Sullivan of the Pelicillo and Animas district of the Chiricahua forest, who reported his discovery to the forestry headquarters here today.

His report has been forwarded to the American Archaeological Association. Picture writing which showed the dinoceras and the four-toed horse was found written on a crude paper made of reeds and on walls of caves. Ranger Sullivan reported he believed the settlements were the original dwellings of the Aztec tribe.

RUSSIA IN SYMPATHY WITH PEACE IDEALS OF WILSON

Petrograd, via London, January 24--Having given more careful consideration to President Wilson's address to the Senate, the editorial writers in their comments today are almost unanimously of the opinion that the President's address although admirably expressing ideals and aims with which Russia is in full sympathy, can have no particular practical effect nor bring nearer the moment of peace.

WOULD CONNECT CHICAGO WITH NEW YORK

The Type Used in One Year to Publish Endorsements of Doan's Kidney Pills.

Of the many kidney remedies on the market today, none other is recommended like Doan's Kidney Pills. Forty thousand benefited people gladly testify in the newspapers of their own towns. Forty-five hundred American newspapers publish this home proof of Doan's merit. The type used in one year to tell this wonderful story would make a solid column of metal twice as high as the world's highest mountain. Placed end to end the lines of type would reach from New York to Chicago. These miles of good words told by 40,000 tongues sound glad tidings to any Maysville sufferer who wants relief from kidney and bladder ills. Here's a Maysville case. Don't experiment. Use the remedy endorsed by people you know.

John J. Bramel, bookkeeper, Walnut street, Maysville, says: "Doan's Kidney Pills have been of great benefit to me and in fact, I attribute fourteen years of my life to them. It was in 1902 that I was suffering a great deal. After long use of Doan's Kidney Pills, I became well and had no bad effects for many years. Recently however, I noticed my kidneys were not acting right and my system was generally weak. I knew it was a return of the trouble and I didn't lose any time in getting a box of Doan's Kidney Pills at Chanslor's Drug Store. They again gave me the same good results and I consider them a wonderful medicine."

Mr. Bramel is only one of many Maysville people who have gratefully endorsed Doan's Kidney Pills. If your back aches--if your kidneys bother you, don't simply ask for a kidney remedy--ask distinctly for DOAN'S KIDNEY PILLS, the same that Mr. Bramel had--the remedy backed by home testimony. 50c all store. GERARD AND CHANCELLOR CONFER ON WILSON'S PEACE ADDRESS

London, January 24--The American ambassador at Berlin, James W. Gerard, was called to the foreign office today, whether he was summoned by the imperial chancellor for a conversation respecting President Wilson's address to the Senate, says a Berlin dispatch to Exchange Telegraph Company, by way of Amsterdam. The conference lasted for more than an hour and later the ambassador sent a wireless message to Washington "at the urgent request of the German cabinet."

In parliamentary circles, says the correspondent, President Wilson's speech is generally considered a last move for peace, and that if it is unsuccessful, the President will be obliged to side finally with one of the belligerent groups.

THE UNIVERSAL CAR

Announcement

The company is many thousands of cars behind their orders. The railroads are unable to deliver rapidly enough on account of shortage of freight cars. On account of these conditions, which are the worst I have ever had to contend with since being in the automobile business, the company will not ship cars to a dealer unless he has orders for the cars signed by customers who are waiting for cars.

The tremendous demand will continue throughout the winter in the south and southwest, and the shortage in this part of the country in the spring will be the greatest ever known.

I have already sold and delivered one-half of all the cars I contracted for the 1917 season. I have orders on file for 25% of all the cars the company will ship me between now and August 1st. The man who waits till spring to place his order for a Ford will not get his car till mid-summer or next fall. Therefore, if you want a Ford car this year, place your order now and take the car as soon as I can deliver. Don't wait.

FIRE INSURANCE FIRM DIRECTORS ARE REMOVED

Lexington, Ky., January 25—The board of directors, with one exception, and all officers of the Henry Clay Fire Insurance Company, were re-elected in successive annual meetings of the stockholders and the board of directors here yesterday. The single exception was in the election of H. L. Grooms, a banker, of Fountain Run, to succeed Lester Witherspoon resigned, on the board of directors.

A communication from the Frankfort Chamber of Commerce inviting the company to make its headquarters in Frankfort, the home of the United American Insurance Company with which it consolidated several years ago, was read at the meeting. On motion of the Frankfort stockholders the officers were appointed as a committee to consider the proposal. Frankfort, it is understood, has been urging the company to move its head offices there since its organization. It is stated there is only a remote possibility of the offices being moved from Lexington.

Mr. W. H. Cox of Maysville was re-elected as one of the directors of the company. There are a large number of stockholders in Mason county. General Manager C. F. Snyder read his report immediately after convening after the noon recess, showing the company to be in first class condition.

LOOKS LIKE A FAIR

Yesterday one of the local men, who is very much interested in the project of establishing a country fair in this county, received a letter addressed to the Secretary of the Maysville Fair Association. Upon opening it proved to be a communication from Mr. J. H. Meyer of Lima, Ohio, asking for the privilege of a merry-go-round during the Maysville Fair the coming season. The man had evidently heard of the campaign being conducted to establish a fair here and wanted to be the first one to get the privilege. As this campaign for the fair has been conducted through the columns of the Ledger, it is another proof that advertising in this paper pays.

Mr. and Mrs. Albert Ingram of Dana, Ind., who have been spending the past five weeks on the Florida coast and at Chattanooga, Tenn., are now guests of Captain and Mrs. Frank Keith of East Second street and Mr. and Mrs. Sydney Keith of Commerce street.
